## **New Book from the ICAC**

### ***Cotton: Technology for the 21<sup>st</sup> Century***

Six years after the publication of the book *Cotton Facts*, the ICAC has published a new book called *Cotton: Technology for the 21<sup>st</sup> Century*. The book has 16 chapters, each contributed by highly respected and internationally recognized authors from across the world. *Cotton: Technology for the 21<sup>st</sup> Century* begins with the origin of the cotton species and ends with a provocative look at how world production and demand may change in the 21<sup>st</sup> century.

The book is devoted to future trends in ever-changing cotton production technology and research. Pest control, sustainability, biotechnology, fiber quality measurements, yarn processing and dyeing/finishing form substantial parts of the book. The table of contents is available at [http://www.icac.org/tis/publications/book/table\\_of\\_content\\_2010.pdf](http://www.icac.org/tis/publications/book/table_of_content_2010.pdf). The price, which includes shipping, is US\$180 and can be ordered at [publications@icac.org](mailto:publications@icac.org).
